Introduction

The world is evolving with the advancement of technology and innovation. Technology is making everything easier and faster, however, it is a little bit complicated to understand how it works.

Digitalization is becoming a new necessity. The world is changing really fast, and we are left with no choice but to adapt and go with it. Cryptocurrency is one of the innovations which is getting so much attention these days.

Cryptocurrency is one of the most efficient types of currency which makes financial operation much easier. It is becoming one of the popular modes of payment on different platforms. This is why we created the [Funex Club](#).

Introduction to Funex Club

Funex Club is a Crypto ecosystem that provides several products and services to simplify crypto operations. We aim to substitute fiat currencies with Cryptocurrency as it has a lot of benefits which include security, low transaction, cross-border transactions, decentralized, and so on.

In 2019, a team of crypto enthusiasts came across the thought of making crypto a prominent medium of payment and established the Funex club. In order to make it widely accessible, and available to every individual they came up with a solution that would be effective over the long run in the form of the **Funex Club**.

Funex Club went through difficult roads during every phase of its development, which has resulted in significant achievements. As a result, it has grown into a flawless, fully-functioning crypto ecosystem today. Till now Funex has launched some amazing products which include,

- Funex wallet (Centralized Wallet)
- Funex Pro wallet (Decentralized Wallet)
- Funex Coin (Native Coin)
- Gaming Universe

Funex Club has developed a blockchain-based gaming platform in which players can utilize Funex coins as gaming currency with Funex's wallets. Users will get a simple and seamless experience with our blockchain-based and crypto-based gaming.

Funex Club's Mission & Vision

Funex Club's objective is to provide complete solutions to each crypto holder for every kind of requirement. At this time, we created an amazing team of highly skilled developers and technicians that are responsible for supervising the development process. Our team is currently working on a variety of products in order to provide crypto holders with A to Z solutions to conduct several crypto operations with the Funex Club. We have also developed a native token- Funex coin which is made to make crypto transactions within the Funex Club ecosystem and games.

At Funex Club, We are looking forward to making our crypto token "Funex coin" the most valuable and multi-utility token so that it can be used on different platforms to make payments or transactions. To make it the most secure cryptocurrency we developed our token using multiple token standards which include, **ETH20, BEP20, and TRC20**.

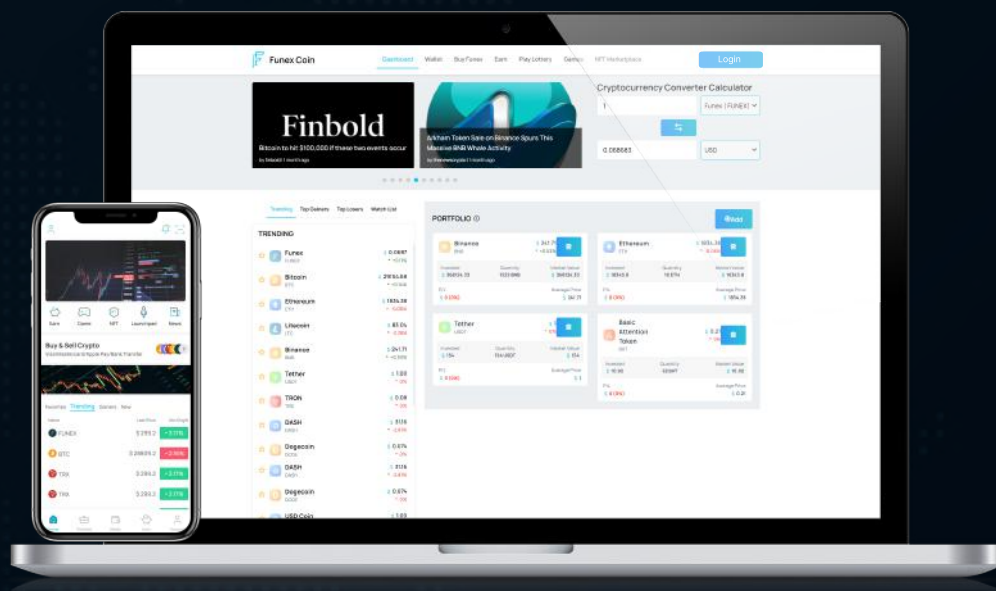

We are working on applications and crypto platforms with the most advanced technologies. With all the skills and knowledge we have we are making our products with an easy to use interface. There are several things we are working on, some of which are:

Simple UI: Our platform is easy-to-use, and anyone can proceed with transactions and other operations within a few seconds with 2-3 taps.

Gaming crypto: With Funex Club, users will experience the unparalleled universe of gaming which will allow them to access all the products of Funex Club. Users will be able to use Funex coins as a gaming currency, and their wallets will be used as a medium to store rewards and coins.

Multi-utility crypto: Funex's products are developed not only for the Funex club ecosystem but for other platforms as well. Funex coin is developed with the aim of making it a multi-utility cryptocurrency all over the world and with time we are achieving our objectives.

Crypto for Web2 and Web3: Users of Funex are able to use Funex's coins and wallets on web2 platforms and applications. Despite this, the security provided by web3 technologies is not compromised in any way.

Funex Club Ecosystem

Funex Club is a revolutionary crypto ecosystem that provides users with crypto-related products, services, and platforms to facilitate the quick, safe, and easy processing of cryptocurrency transactions.

Why we created Funex Club

The four main reasons behind the birth of Funex Coins:

To Provide complete solutions to each crypto holder for every kind of requirement.

To bring cryptocurrency within everyone's reach by enlarging its availability & usage.

To give the gaming industry a dedicated gaming-friendly cryptocurrency.

To promote crypto gaming with our Gaming universe.

Funex Club Products & Services

At Funex Club, we're dedicated to enhancing every aspect of your gaming journey and crypto operations. We've developed a range of top-tier products to seamlessly integrate into your lifestyle, making your interactions with both gaming and cryptocurrency ventures smoother and better than ever before. We Integrate rewards and loyalty programs that incentivize gamers to use the wallet for in-game purchases and activities.

Technology

Funex implements the ERC-20 token standard.

How to buy it?

You can buy the token on

Utility

The Funex token is a utility and gaming token. It provides a two-way relationship between Funex Club and its customers, letting them use a blockchain-based infrastructure to access Funex's services and products digitally.

Funex Wallet

Funex wallet is built using a combination of various technologies, including software development frameworks, Blockchain, and security protocols. It has user-friendly interfaces and implements robust security measures.

To develop the Funex wallet, each team member used their own unique skills, approach, and stack of technologies based on their specific goals and requirements to make it suitable and easy to access for everyone.

- Instant Operations
- Easy-to-use UI
- Super Smooth Experience
- High-End Security
- Topnotch Privacy
- Easy-to-use Design

Staking program

The Funex Wallet offers the most rewarding staking program available across the cryptocurrency industry. Users can earn decent rewards by staking a portion of their cryptocurrency. Users have a variety of stake options to pick from which contain various cryptocurrencies, time periods, and the amount.

Multi-Blockchain Support

Funex Wallet is made with multi-blockchain which means it supports multiple cryptocurrencies based on various chains. Funex Wallet is flexible in accepting & storing more than 25 cryptocurrencies yet.

Funex Pro Wallet

Funex Pro Wallet is designed specifically for crypto and gaming enthusiasts to offer a secure and convenient way to manage in-game assets, purchase virtual goods with cryptocurrencies, and interact with blockchain-based gaming platforms. This wallet can cater to the unique needs of gamers who want to seamlessly integrate cryptocurrencies into their gaming experience.

- Securely store and manage in-game assets
- Enable easy transfers and trades of in-game assets with other players.
- User-friendly interface to view and organize gaming assets within the wallet
- Users get their private keys and ensure the safety of their gaming assets.

Technologies used in wallet

Flutter-Powered Mobile App:

With Funex's wallets, get a user-friendly mobile experience. The Funex Wallet mobile app, developed using Flutter, ensures a smooth and intuitive interface for smooth crypto and gaming including robust private key management.

Laravel PHP Web App:

Users will Dive into the world of crypto and gaming through our web app, powered by Laravel PHP. We provide seamless navigation and powerful features, all designed to simplify crypto operations and enhance your gaming journey.

Robust Backend API Management:

Our robust backend API management ensures seamless communication between the mobile and web applications. This enables real-time updates, secure transactions, and a cohesive experience across platforms.

Blockchain-based games

Gaming is more than just a hobby – it's a passion. That's why we've developed cutting-edge products that take your gaming escapades to new heights. Funex's Blockchain-based games elevate your gaming and crypto journey. Users will earn cryptocurrencies, NFTs, and many rewards with our play-to-earn gaming concept.

Our cryptocurrency, wallets, and blockchain-based games are a gateway to a new era of interactive experiences where passion and technology unite. Players will be able to use their Funex coin to play and earn in these games. We want to unlock a realm of possibilities that will forever transform how you view gaming and cryptocurrencies.

- Games that seamlessly blend the thrill of gaming with the limitless potential of blockchain technology..
- Uncover hidden treasures in the form of digital assets, NFTs, and tokens, adding an exciting layer of value to your gaming accomplishments.
- Immerse yourself in the world of interactive non-fungible tokens (NFTs), where each in-game achievement is a digital masterpiece that you can own, trade, and cherish.
- Earn blockchain-based rewards for your accomplishments, levelling up your crypto portfolio while you master the virtual world.

Type of games

8 Ball Pool- It is a very popular game that can be played by two players. In this game, players try to pot the balls (stripes or solids) and then the 8 balls to win.

9 Ball Pool- This game is similar to 8 Ball Pool where players must pot the balls in numerical order to win the game.

Baccarat- Baccarat is a game of luck in which players have to guess the result to win the rewards and game.

Connect4- it's a turn-based 2-player game where players get turns dropping colored discs from the top into a vertically suspended grid, with the objective of getting four of their own of the same color consecutively in a line.

High & low- A simple game where players bet whether the next card will be higher or lower than the previous one.

Roulette- A casino game where players bet on which number or color a ball will land on a spinning wheel.

Sicbo- A dice game where players bet on the outcome of rolling three dice.

Rummy- A group of matching-card games, often involving forming sets or runs of cards.

Chess- It is a very popular strategic board game played between two players where the objective is to checkmate the opponent's king.

Sudoku- A number puzzle game where players fill a 9x9 grid with digits so that each column, each row, and each of the nine 3x3 subgrids that compose the grid contain all of the digits from 1 to 9.

Teenpatti- It is a card game which can be played by 3-6 players where players bet based on the strength of their cards. It is similar to poker and originated in India.

Solitaire- A single-player game where the goal is to move all cards to foundation piles, following specific rules.

Tic Tac Toe- A simple two-player game where players take turns marking a 3x3 grid, attempting to get three of their marks in a row horizontally, vertically, or diagonally.

Black Jack- A casino game where players try to reach a hand value as close to 21 as possible without exceeding it, while also trying to beat the dealer's hand.

Funex Pro Wallet Apps Security

Private Key or Seed Phrase

The 12-digit Seed Phrase can be used to log in to your Funex wallet account on any device. For us, your security is our top priority. That's why we've implemented strict and advanced security measures – your seed phrase stays securely within your phone at all times.

Note: The Seed Phrase is of crucial importance. It is used to sign in or recover your Funex wallet account. The Seed Phrase should be kept with the utmost safety. If it is lost, there is no other way to recover your account.

Backup and Recovery

While your seed phrase remains within your phone, we strongly recommend that you create a secure backup of your seed phrase. This backup should be stored in a safe and separate location, away from your phone, to ensure that you can recover your wallet in case of any unforeseen circumstances.

Enhancing Safety with Blockchain

At Funex Club, we leverage the power of blockchain technology to provide you with a secure, transparent, and trustworthy platform for managing your assets. Blockchain technology ensures the safety and transparency of your financial transactions and holdings.

Funex Club's Availability

Funex Club products and services can be accessed via websites and mobile applications for both Android & iOS users. We also have a website on which you'll find each of our services & products.

The mobile wallet applications are available on [Google Play Store](#) & [Apple App Store](#). They provide a fast & smooth UI and a never-seen-before crypto wallet app experience.

Funex 2.0

Funex's Staking Reward Program is a [game-changer in the world of crypto rewards](#). We're proud to present one of the most rewarding Staking programs in the industry.

Funex Staking Reward Program

With Funex your crypto earnings grow exponentially with every referral you make. Our Staking Program offers flexible tenures, you can choose the time period and amount for staking your coins.

But that's not all – our referral program takes your rewards to a whole new level. As a Funex wallet user, you have the opportunity to earn a percentage of the coins staked by new users you refer. The most exciting part? This chain of rewarding processes extends up to 8 levels, which means you earn a reward till the 8th stake. The users need to follow mandatory guidelines to claim the staking rewards.

Benefits of Staking with Funex

By staking your coins, you create a pathway to earn rewards that align with your financial goals. To claim your rewards, follow our simple guidelines and get a seamless and rewarding experience.

Your rewards will be granted in the form of Funex Coins. As you participate in our Staking Reward Program, you're not only growing your crypto holdings but also entering the ever-expanding and innovative world of Funex.

Tech Stack in Staking Reward Program

Funex provides you with a seamless and rewarding staking experience. Our off-chain rewards mechanism, powered by NodeJS and MySQL, is the backbone of our rewards calculation process which ensures accuracy, efficiency, and transparency in calculating and distributing staking rewards.

Purpose of Providing Rewards

At Funex, we value your presence within our ecosystem. By staking your assets and remaining active over an extended period, you're allowing Funex's fast growth and development. Your continuous participation in our platform contributes to the platform's stability, liquidity, and overall success. As a gesture of gratitude, we offer rewards for your commitment with a share of the benefits generated through this collaborative effort. We also reward users for staying longer in the game environment.

How do we get rewards up to 8 levels?

A refers to inviting user B to create an account on Funex Club. B accepts the referral, creates an account, and stakes her Funex coins. Now A will receive a percentage of B's stacked coins as referral rewards.

This benefit program will continue for 8 levels. It means that if B refers to C - A & B will both receive the benefits. If C refers to D - C, B, & A will receive a percentage of D's stacked coins as referral rewards.

At last, if refers to H - G, F, E, D, C, B, & A - all will receive the benefits. The 8-level referral cycle will now be completed. The referral cycle will continue for others in the same manner as A.

Note: The reward percentage will keep declining as the cycle chain moves forward. The user will receive the highest referral reward percentage for level 2 and the lowest for level 8.

Funex Club Roadmap

Funex Club embarked on a remarkable journey – one characterized by experiences, a symphony of highs and lows, achievements & flaws since the project's beginning. Our journey has been adorned with achievements. Through it all, our commitment to innovation, growth, and your satisfaction remains unwavering. As Funex Club's journey carries on, we want you to join us on this exhilarating expedition.
